7 Courses

- Network Architecture
- Network Operations
- Secure Against Network Intrusions
- Security Hardening
- Introduction to Detection and Incident Response
- Network Monitoring and Analysis
- Network Traffic and Logs Using IDS and SIEM Tools

May 11, 2026

Farhan Dwi Ananda Putra

has successfully completed the online Specialization

Google Network Security

Individuals who earn the Network Security Specialization from Google have completed a program where they practiced with industry-standard tools and applied their knowledge in real-world scenarios. They are competent in foundational skills in network architecture, operations, intrusion detection, system hardening, and incident response. They know how to investigate security breaches and intrusion tactics, apply OS, network, and cloud hardening techniques, and analyze network traffic and logs using Wireshark, Suricata, Wazuh, and Google SecOps.
